

Dorian Rhone

CSCE242-001

Project

Website Name: Rhone Steakhouse

Description: This website will be a page for a restaurant “Rhone Steakhouse”. Each page will be the home, menu, reservations, jobs, events, catering, and about us pages. The website will also have the titles of each page to press to continue to the other pages. Include multiple features: live reservation updates, limited-time food and drink options, list of weekly events. A Job listing page will be used for those seeking hiring opportunities. About Us page will be a brief introduction to the overall purpose and history of the restaurant.

Pages

- Home Page
 - o List all pages, including the restaurant's location and number. Reviews will be listed with the current
- Menu
 - o Menu with all meals and drinks, with descriptions and pricing included. Also, limited-time menu items.
- Reservations
 - o Reservation system that shows available times, with the option to request an occupied time.
- Jobs
 - o A job list of positions needed and will appear with role and hourly pay. This page will also have a box to type in your information with a question. If no jobs are available, then the page will say “no jobs are available at this time; enter your info with question below for response”
- Events
 - o A page for weekly events listed 2 months in advance.
- Catering
 - o Catering service provided with a different menu to select what type of meal course you want, with up to 5 options.
- About us
 - o About us will include the founder, purpose to the community, and cultural background
